"We embark into new learning & milestones each day." This time it was Master's in Artificial Intelligence for me. I am delighted to share that I have successfully completed "Master's in Artificial" Program from INSIDEAIML.

It was a good learning experience for 8 months. The driving force was indeed to learn new technology, commitment & aim to succeed.

The program covered from basics of python to end to end data science with statistics & Machine learning, Deep learning, Power BI, Tableau & Open CV. Now excited to apply the knowledge in current Steam Engineering & Energy sector.

I would like to thank INISIDEAIML, my mentor & friends for guiding & supporting me at every stage ...see more
